

# EPIC Training

Enhancing Professionalism in Construction

## Mission

---

To deliver the very highest quality and cost-effective projects on schedule and within budget by employing and supporting motivated, focused teams. We are committed to adding value for clients through safety, innovation, professionalism, productivity and integrity.

## About EPIC

---

EPIC is professional training that goes beyond technical skills. It is about creating and maintaining respectful work sites, providing effective jobsite leadership and mentoring, and communicating expectations. EPIC training is essential because respect for others is required at all levels.

## Training

---

### 10 HOURS

EPIC training topics provide the framework for a supportive team approach that includes tradespersons, contractors and end users, all of whom will benefit from the values reaffirmed within this program. In addition, these core topics help to create and maintain a more respectful, productive and safe work site.

## Topics

- Safety
- Communication
- Mutual Respect
- Professionalism
- Work Readiness
- Construction Project Economics
- Personal Finance
- Importance of Customer Relations
- Embracing Diversity
