CAMPUS Skill Enhancement Classes

Advanced Metal Stud Framing:

24 hour course. This class covers radius, sloped, light cove and more intricate framing techniques. Also includes an introduction to track bender.
Prerequisite: Minimum 3 year apprentice
Expiration: None

course offered:

upon request

American Red Cross CPR/First Aid/AED:

8 hour course. This class provides a First Aid/CPR/AED qualification
Prerequisite: None
Expiration: 2 years

course offered:

1/5-1/6, 3/2-3/3, 5/13-5/14, 7/8-7/9, 8/31-9/1, 11/2-11/3
2/4-2/5, 6/3-6/4, 8/3-8/4, 10/7-10/8, 11/30-12/1

Architectural Sheet Metal:

8 hour course.

course offered:

upon request

Armstrong Wall and Ceiling System:

12 hour course. This class works with quick stick, soffit gigs, radius domes, drywall grid and suspended light cove framing.
Prerequisite: None
Expiration: None

course offered:

upon request

Blueprint Reading-Basic:

8 hour course. This class covers general procedures, basic skills, and the necessary tools and materials needed to lay out a building. The architectural lines and symbols shown on site plan prints which are necessary to facilitate layout are also discussed.
Prerequisite: None
Expiration: None

course offered:

1/21-1/22, 6/24-6/25, 10/12-10/13,

Blueprint Reading-Advanced

8 hour course. A more in depth look at prints, how to do advanced layout, possible intro to electronic print reading, and how to transfer information to shop floor.
Prerequisite: Some experience with blueprints
Expiration: None

course offered:

3/18-3/19, 8/24-8/25, 11/4-11/5

Construction Master Pro:

Confined Space:

8 hour class. The Construction Master Pro teaches the use of the calculator to solve practically any problem involving measurements and can be used to save time and prevent errors. During the class you will perform common building projects such as estimating concrete volume, squaring-up foundations, framing roofs, ordering lumber, and many other projects. Calculator and workbook are available for purchase.

course offered:

upon request

Confined Space Refresher:

8 hour course. This class refreshes Confined Space

Prerequisite: Confined Space

Expiration: None

course offered:

1/20, 4/20, 10/12,

16 hour course. This class deals with the characteristics of confined space and requirements for a permit-required confined space program.

Atmospheric hazards are described along with the methods of and time requirements for ventilation; and procedures for monitoring air quality. Prerequisite:

None

Expiration: None

course offered:

2/2-2/5, 5/4-5/7, 8/10-8/13, 11/2-11/5

Construction Ingles:

8 horas de clase. Esat clase cubrira las palabras en

Ingles basicas y mas usads en construccion, sentencias en Ingles mas comunes, numeros y frases.

La segunda noche cubrira la practica de la pronunciacion y diferentes escenarios en vivo.

No prerequisites

No tiene expiracion

course offered:

upon request

Construction Spanish:

8 hour course. This class covers the basic and most used Spanish words in construction, most common Spanish sentences, numbers, and phrases. The second night will cover practicing pronunciation and different live scenarios. Prerequisite: None
Expiration: None

course offered:

upon request

Construction Math/Radius:

8 hour course. This class covers radius math, how to layout radius without a center point. Also covers elliptical and octagon layout.

Prerequisite: Math for the Trades

Expiration: None

course offered:

upon request

Construction Fall Protection:

8 hour course. This Construction Fall Protection class addresses safety requirements when working from an elevated area, and covers how to recognize and properly address hazards in our industry.

Prerequisite: None

Expiration: None

course offered:

Controlling Contaminants: Food and Bev:

24 hour course. Food, Beverage and Pharmaceutical Industry specific. Policies and Procedures used to limit the amount of disruptions and contaminants in these facilities.

Prerequisite: None

Expiration: None

course offered:

2/18-2/19, 4/28-4/29, 7/13-7/14, 8/10-8/11, 10/28-10/29, 12/2-12/3, 1/5-1/6, 3/23-3/24, 6/1-6/2, 10/5-10/6, 11/16-11/17

upon request

Door Hardware 1:

24 hour course. The classroom will cover the order of installation, different types of hardware, as well NFPA and ANSI codes. On the floor you will layout, prep, and install cylinder and mortise locks. You will also install a rim exit device, trim, and closer.

Door Hardware 2:

32 hour course. The classroom will be a review from Door Hardware 1 as well as go over surface vertical rod adjustment and dead latch. The shop projects will consist of 4 different exit devices (9927, 22 ALK, 3347, 9975), 3 different closers (4041 XP, 4020, 4110) one with drop plate mount, coordinator, overhead stop, and talk about 9947 CVR and 9950 WDC. There will also be discussion about other double door hardware. Prerequisite: Take and score a 90% or higher in Door Hardware 1

course offered:

4/20-4/29

course offered:

upon request

Door Hardware: Allegion Certified Installer:

28 hour course. 4 hours of instruction, 24 hours of certification (6 - 4 hour modules). **Passing requirements:** complete each module in allotted 4 hour timeframe, no assistance from the instructor (questions or suggestions), 100% proper installation and operation
Prerequisite: Take and score 90% or higher in both Door Hardware 1 and 2

Door Hardware: Maintenance and Troubleshooting:

16 hour course. Maintenance: classroom with PPT and scenarios, a walk through most common issues with doors and hardware (i.e hinge bind, stripped screws, closer leaks and readjustment, latch adjustments, sticky exit devices, drooping levers, etc) and affordable ways to repair them without cost of replacement, preventative maintenance to avoid the cost of replacement, help design a basic maintenance schedule, change handing of hardware and hinge location for temporary door use with previously used components. Troubleshooting: hands on experience of actual created scenarios with hardware
Prerequisite: Journey level carpenter with door hardware field experience or Door Hardware 1 and Door Hardware 2

course offered:

upon request

course offered:

upon request

Effective Communication for Foremen:

4 hour course. This course focuses on effective communication for a foreman. Discussions will include actively listening, emotional intelligence, and listening to understand. This course will conclude with interactive exercises in a competitive group setting.

EPIC - Formerly PRO 10:

10 hour course. Professionalism, communication, diversity, Union history, safety, and "Big Picture". This course will be held at the Council's Tech Room - 710 Olive Street, 55130.

<u>course offered:</u> 1/27, 5/11, 9/30, 2/16, 4/9, 6/23, 10/29	<u>course offered:</u> 1/27-1/28, 2/18-2/19, 3/3-3/4, 4/15-4/16, 5/20-5/21, 7/15-7/16, 8/19/8/20, 9/14-9/15, 10/5-10/6, 11/18-11/19
<u>Firestop:</u> 8 hour course. Prerequisite: None Expiration: 4 years <u>course offered:</u> upon request	<u>Foreman Concepts 1:</u> 4 hour course. A view of what it takes to be a good foreman. Concepts will include the key aspects of foreman success through safety, market share, customer retention and profit. This course is taught with class engagement, interaction, and the concluding understanding of the typical day as a foreman. <u>course offered:</u> 1/26, 7/15, 11/16, 4/8, 6/22
<u>Foreman: Safety Pays 1:</u> 4 hour course. Dedicated to safety leadership. This includes performing effective hazard assessments and gaining understanding of what injuries and lost time incidents actually cost an employer. Prerequisite: None Expiration: None <u>course offered:</u> 3/9, 7/16, 10/1, 2/17, 10/28	<u>Hazard Communication and Chemical Safety:</u> 8 hour course. This class is a revision of the OSHA manual, Material Safety Data Sheets. The focus in this revision is broader: chemical hazards and safety precautions are thoroughly discussed along with hazard recognition and chemical hazard protection. Prerequisite: None Expiration: None <u>course offered:</u> 2/23-2/24, 6/22-6/23, 8/30-9/1, 11/16-11/17
<u>Hilti PLT 300 Layout:</u> 8 hour course. Digital blueprint reading and layout procedures. <u>course offered:</u> 10/14-10/15	<u>ICRA Best Practice in Health Care Construction:</u> 24 hour course. This class promotes the importance of infection control and outlines protection methods and safe work practices for those who perform construction work in these facilities. Prerequisite: None Expiration: 4 years <u>course offered:</u> 2/23-2/28, 5/24-5/9, 8/3-8/8, 11/9-11/14
<u>ICRA Refresher:</u> 8 hour course. This class refreshes/ reviews the 24 hour ICRA course. Prerequisite: ICRA Best Practice in Health Care Construction Expiration: 4 years <u>course offered:</u> 1/28-1/29, 6/17-6/18, 9/2-9/3, 12/16-12/17	<u>Intro to Multimeter:</u> 4 hour course. Introduces members to the basic functions and use of a multimeter. Included also in this class will be electrical safety and general knowledge information on measuring for volts, amps, continuity, etc. <u>course offered:</u> upon request

Intro to Reciprocating Compressor:

16 hour course. This class will describe the basic considerations when installing, maintaining, or servicing reciprocating compressors. Included is safety, disassembly/assembly, as found/as left measurement readings, and maintenance.

course offered:

upon request

Intro to Welding:

8 hour course. Safety, terminology and welding process introduction for members with little or no welding experience.

course offered:

1/12-1/13, 3/9-3/10, 5/11-5/12, 7/6-7/7, 9/28-9/29, 11/9-11/10
