**Requirements: Union Card, Hard Hat, safety glasses, and work boots.

**All classes are taught in English unless noted otherwise.

**Classes will be cancelled if the minimum attendance requirement is not met.

Advanced Metal Stud Framing:

24-hour course. This class covers radius, sloped, light cove and more intricate framing techniques.

Also includes an introduction to track bender.

Prerequisite: Minimum 3-year apprentice

Course offered: *upon request*

American Red Cross CPR/First Aid/AED:

5-hour course. This class provides a First Aid/CPR/AED qualification

Prerequisite: None

Expiration: 2 years

Course offered: 1/20

Architectural Sheet Metal:

8-hour course.

Course offered: *upon request*

Armstrong Wall and Ceiling System: 12-hour course. This class works with quick stick, soffit gigs, radius domes, drywall grid and suspended light cove framing.

Prerequisite: None

Course offered: *upon request*

Blueprint Reading-Basic

8-hour course. This class covers general procedures, basic skills, and the necessary tools and materials needed to lay out a building. The architectural lines and symbols shown on site plan prints which are necessary to facilitate layout are also discussed.

Prerequisite: None

Expiration: None

Course offered: *upon request*

Blueprint Reading-Advanced

8-hour course. A more in-depth look at prints, how to do advanced layout, possible intro to electronic print reading, and how to transfer information to shop floor.

Prerequisite: Some experience with blueprints

Expiration: None

Course offered: *upon request*

Construction Master Pro

8-hour class. The Construction Master Pro teaches the use of the calculator to solve practically any problem involving measurements and can be used to save time and prevent errors.

During the class you will perform common building projects such as estimating concrete volume, squaring-up foundations, framing roofs, ordering lumber, and many other projects.

A calculator and workbook are available for purchase.

Course offered: *upon request*

Confined Space

16-hour course. This class deals with the characteristics of confined space and requirements for a permit-required confined space program.

Atmospheric hazards are described along with the methods of and time requirements for ventilation, and procedures for monitoring air quality.

Prerequisite: None

Expiration: None

Course offered: 12/21-12/22

Confined Space Refresher

8-hour course. This class refreshes Confined Space

Prerequisite: Confined Space

Expiration: None

Course offered: *upon request*

Construction Math/Radius

8-hour course. This class covers radius math, how to layout radius without a center point. Also covers elliptical and octagon layout.

Prerequisite: Math for the Trades

Expiration: None

Course offered: *upon request*

Construction Fall Protection

8-hour course. This Construction Fall Protection class addresses safety requirements when working from an elevated area and covers how to recognize and properly address hazards in our industry.

Prerequisite: None

Expiration: None

Course offered: *upon request*

Door Hardware 1:

24-hour course. The classroom will cover the order of installation, different types of hardware, as well NFPA and ANSI codes.

On the floor you will layout, prep, and install cylinder and mortise locks.

You will also install a rim exit device, trim, and closer.

Course offered: *upon request*

Hytorc/Atlas Copco:

8-hour course. Coursework & practical applications for torquing & tensioning in an industrial setting.

It will cover torque conversions, flange patterns on diss/re- assembly, gasketing, etc.

Course offered: *upon request*

Controlling Contaminates:

24-hour course. This local class will cover best practices when working in the Food, Beverage, Pharmaceutical production facilities.

The focus being the control techniques & protocols to be used where customer production continues with construction happening onsite.

Course offered: 2/27-3/1, 5/30-6/1, 10/9-10/11

Human Performance:

8-hour course. The goal of Human Performance training is to build the skills to use HP practices and tools to safely navigate through an error-likely situation,

without causing harm to yourself, others, and the equipment that you are working on.

Using Human Performance practices and techniques maintenance work

can be managed more effectively, and errors don't have to lead to losses in safety, quality, and productivity.

Prerequisite: None

Expiration: None

Course offered: 2/9

Firestop Qualification:

8-hour course. This class explains firestop systems and how they are used to control and contain a fire. The class also discusses building codes and how they relate to firestop installation.

Course offered: 11/3

Hazard Communication and Chemical Safety

8-hour course. This class is a revision of the OSHA manual, Material Safety Data Sheets.

The focus in this revision is broader: chemical hazards and safety precautions are thoroughly discussed along with hazard recognition and chemical hazard protection.

Prerequisite: None

Expiration: None

Course offered: *upon request*

ICRA Best Practice in Health Care Construction

24-hour course. This class promotes the importance of infection control and outlines protection methods and safe work practices for those who perform construction work in these facilities.

Prerequisite: None

Expiration: 4 years

Course offered: *upon request*

ICRA Best Practice in Health Care Construction Refresher

8-hour course. This class refreshes/ reviews the 24-hour ICRA course.

Prerequisite: ICRA Best Practice in Health Care Construction

Expiration: 4 years

Course offered: 8/28-8/29, 10/30-10/31

Intro to Multimeter

4-hour course. Introduces members to the basic functions and use of a multimeter. Included also in this class will be electrical safety and general knowledge information on measuring for volts, amps, continuity, etc.

Course offered: *upon request*

Intro to Reciprocating Compressor

16-hour course. This class will describe the basic considerations when installing, maintaining, or servicing reciprocating compressors. Included is safety, disassembly/assembly, as found/as left measurement readings, and maintenance.

Course offered: *upon request ,*

Intro to Welding

8-hour course. Safety, terminology, and welding process introduction for members with little or no welding experience.

Course offered: *upon request*

i-Pad Basics and Intro to Bluebeam

8-hour course. This class introduces you to the i-pad and its basic functions.

The second night will give you a basic overview of the Bluebeam application, screen design, basic tools, and markup features.

Course offered: *upon request*

Math for the Trades

8-hour course. This class is a basic treatment of trade math beginning with general math, fractions, and decimals.

Prerequisite: None

Expiration: None

Course offered: *upon request*

MSHA 24hr-New Miner

24-hour course. This course covers Mining & Safety training requirements to work at mining facilities.

This course satisfies Part 46 & 48 training requirements of the CFR 30.

Prerequisite: None

Expiration: 1 year, then refresh annually

Course offered: **4/3-4/5**

MEWP's

8-hour course. Formally known as aerial lift, covers safety issues and guidelines for mobile elevating work platforms that can be driven in an extended position and moves both inside and outside tipping lines. Class includes classroom theory, 50 question exam, and the required practical for Group A, Type 3 and Group B, Type 3. This class is the ANSI approved training for Mobile Elevated Work Platform operation.

Course offered: *upon request*

Open Welding

Course offered: 2/20-23, 3/13-3/16, 4/10-4/13, 5/15-5/18, 6/26-6/29, 7/31-8/3, 9/25-9/28, 10/16-10/19, 11/13-11/16, 12/4-12/7

MSHA Refresher

8-hour course. This course refreshes the initial 24hr New Miner.

Prerequisite: **Current-** MSHA 24 Trng.

Expiration: refresh annually

Course offered: 4/6

OSHA 10

10-hour course. This course covers a basic OSHA overview, rights and responsibilities of employer and employee- 29CFR1926

Prerequisite: None

Expiration: None

Course offered: 1/17-1/18

OSHA 30

30-hour course. This course covers a more in-depth examination of OSHA standards, rights and responsibilities of employer and employee- 29CFR1926

Prerequisite: None

Expiration: None

Course offered: *upon request*

PITO Industrial

8-hour course. This class introduces many kinds of lift trucks—their components and applications. The text focuses on industrial lift trucks.

Course offered: **1/19, 3/22-3/23**

PITO Rough Terrain

8-hour course. This class introduces many kinds of lift trucks—their components and applications. The text focuses on rough terrain lift trucks.

Course offered: *upon request*

EPIC

10-hour course. Professionalism, communication, diversity, Union history, safety, and "Big Picture".

Course offered: **3/28-3/29, 5/23-5/24**

Rigging

40-hour course. This class introduces and supports the hands-on portion of the Rigging and Signaling course.

An introductory chapter on the history of rigging is followed by chapters on safety, wire rope, chain construction, slings, hardware, and knot-tying techniques.

Prerequisite: None

Expiration: 4 years

Course offered: *upon request*

Rigging Refresher

16-hour course. This class refreshes 40 hour Rigging Course

Prerequisite: Rigging 40 hr.

Expiration: 4 years

Course offered: 2/20-2/23, 10/2-10/5

Scaffold 40

40-hour course. This class provides clarification of the roles of a competent person and a qualified person and presents training requirements for erectors, dismantlers, and users.

Information and guidance are given for calculating capacity and contributory leg loads.

Prerequisite: None

Expiration: 4 years

Course offered: 11/27-12/1

Scaffold 40 Refresher

8-hour course. This class refreshes/reviews scaffold 40-hour class.

Prerequisite: Scaffold 40

Expiration: 4 years

Course offered: 11/28-11/29

Silica Awareness

2-hour course. This class covers understanding the hazards of silica, with an overview of OSHA Construction silica final rule.

Course offered: *upon request*

Stepping Up to Foreman

8-hour course. This class allows participants to learn about the responsibilities of UBC Foreman.

The skills required of foremen, such as communication, job planning, scheduling, completing reports, and managing a crew are all discussed.

Prerequisite: None

Expiration: None

Course offered: *upon request*

Solid Surface

16-hour course. The Solid Surfaces class provides in-depth instruction in the technical aspects of working with solid surface material. The course covers epoxy, joining solid surfaces and proper surface finishing.

Prerequisite: Minimum 3rd year apprentice

Expiration: 4 years

Course offered: *upon request*

Spectra Precision QML-800

8-hour course. Digital blueprint reading and layout procedures.

Course offered: *upon request*

Total Station I and II/XR-10

8-hour course. Covers a combination of Total Station I and II. It will begin with a review of the fundamental workings of the total station and how building quadrants are established. The second day will cover the capabilities and functions of the total station layout equipment.

Course offered: *upon request*
