WHAT DO I DO NOW?

Questions to ask an employee who reports they have COVID-19.

1. What date did you first feel ill?

_____ subtract 2 days = _____(first day they could spread it to others)

2. When did you start to self-isolate?

_____ (last date they could spread to others)

3. Did you work between these two days (this is called the period of communicability)?
- Did not work = no workplace exposure
- Did work, continue to question #4

4. Which job site or building location were you at each day?

5. What was your physical location and task?

6. Did you have a fabric face covering or mask on while at work?

7. Did you spend any time within 6 feet of any other individuals for 15 minutes or greater?

Start a list and notify individual(s) to quarantine for 14 days.
